2018

ACTING

Acting skills are taught using the Spolin method incorporating "theatre games" and the groups work towards a performance twice yearly. Students also study and learn texts and time is also spent helping to develop characterisation skills. Independence and self confidence are developed and fostered, whilst also providing all the necessary skills and disciplines to provide a stepping stone to a professional career.

Some opportunities may also arise during the year for performances at Community events.

Private classes are available to assist with auditions or screen tests or to just provide an intensive one on one learning experience.

MUSICAL THEATRE

Musical Theatre Classes are 2 hour per week sessions, focussing on Musical Theatre technique. The classes will include acting, singing, and dancing with specialist teachers throughout the term. The classes will be working towards performances twice yearly and the focus is on ensemble work.
